

# Training Courses In Minimal Access Surgery

Minimal access surgery is the future. It is already an established standard of surgery on majority of abdominal / chest surgery and is acquiring increasing applications in the field of Urology, Cardiac surgery, Vascular surgery, Neurosurgery, Plastic surgery, Paediatric surgery and Orthopaedics. It is envisaged that a great majority of surgical procedures in most major surgical specialities will be performed by minimal access surgery in the coming years. Minimal access surgery is a highly specialized, technology driven surgery that requires special training and exposure to sophisticated endovision equipment and hand instruments.

The Institute of Minimal Access, Metabolic & Bariatric Surgery has an extremely busy workload with more than 200 major laparoscopic procedures performed every month. The Institute is committed to providing educational opportunities so you may continue to enhance your abilities, interests and knowledge in minimal access surgery.

**a) Post-graduate Introductory Course (3 days)**

A Post-graduate Introductory course is specifically designed keeping in mind the basic need of **post-graduate students** appearing for post-graduate examinations.

**b) Basic training course (5 days)**

The basic training course involves an exposure to all aspects regarding basic laparoscopic surgery. This includes didactic lectures on instrumentation, equipment, maintenance, pneumoperitoneum, port placements and basic laparoscopic procedures. Also, candidates shall interact in real time with surgeons performing live laparoscopic surgery. Endotainers for basic hand eye coordination as well as intra-corporeal suturing techniques are provided. The following are the course dates:

**c) Fellowship (3 months)**

Departmental **fellowship** courses where fellows are admitted for intensive training and may assist for basic and advanced laparoscopic procedures.

**d) Observership(2 weeks)**

Observership courses where surgeons may attend operation theatre sessions with prior arrangement.

Applications form available on our website [www.maxhealthcare.in](http://www.maxhealthcare.in) .
