

A new lease on life.

Now with our new state of the art dialysis unit.

At Max we're constantly striving to give our patients a better future. Our new state of the art dialysis unit aims to do just that. Now our patients can benefit from services that are beyond just the basic.

Services offered:

- State of the art 17 bedded Hemodialysis Unit
- Separate units for Hepatitis C & Hepatitis B positive and negative patients
- Individual LCD TV's with channel music for each patient
- Highly trained, patient centric and friendly staff
- 24 x 7 dialysis availability including emergency services
- State of the art R O water plant for a better quality of dialysis and lesser chances of complications
- International standards in patient safety, procedural competence & electronic monitoring systems
- Affordable cost
- Hygienic environment
- Availability of CRRT machines- required for dialysis of critically ill patients in the ICU
